PROJECTS

ZEN GARDEN

Using primarily CSS, created a pixel-perfect, fully-responsive web page.

CSS - HTML - JAVASCRIPT

WALK OR FIGHT

Formed a role-player game with vanilla Javascript and Node.js.

JAVASCRIPT - NODE.JS

CAT LADY DAILY

A responsive single page application featuring an API of cat facts as well as a dynamic cat lady progress bar and "tic cat toe" game created with React.

CSS - REACT

NAME BADGE

A web form formed in React that inputs a user's information and creates a name badge when submitted, all while checking that character types are valid and input boxes are not empty.

REACT - CSS

HIT LIST

Used an API to formulate a page displaying a client's hit list.

REACT - CSS
